NORTH EAST INNER CITY PROGRAMME OFFICE REPORT

Implementation of the actions identified in the Mulvey report is continuing under the direction of the Chairman Michael Stone, the Programme Implementation Board and five Sub-Groups. A progress report on the work of the Board to date was launched by the Taoiseach, Leo Varadkar during his visit to the North East Inner City on Monday 26th February 2016. The report is available to download at www.neic.ie

Speaking at Sherriff Youth Club, the Taoiseach said: "I am delighted to be present for the publication of this report and to support the on-going effort to regenerate the neighborhood. This morning, I had the chance to visit a number of community projects and see with my own eyes the commitment and passion of so many people determined to bring hope and opportunity back to this community. The North Inner City is full of decent people, long established communities and newcomers who are proud of their neighbourhood and want the best for their children. While the community has faced serious challenges in recent years, there is a real determination to move forward. The Government is determined to back this through targeted investment and expertise."
